

KESHINI

VIRGIN HAIR EXTENSIONS

HAIR CARE GUIDE

At Keshini Hair, we are committed to providing you with top quality 100% virgin hair. Please follow this recommended hair care guide to ensure you receive full satisfaction with our hair.

Pre-Installation Requirements

Your satisfaction is our guarantee at Keshini Hair, which is why we always recommend that you follow these steps prior to installation.

1. Wash the hair using warm water. It will make it much easier if you keep the security band on the weft while you are washing it to prevent tangling.
2. Apply a generous amount of conditioner, then run your fingers through the hair from top to bottom.
3. Rinse the conditioner out with warm water.
4. Pat hair with a towel then set out to air dry.

Once it is dry, the hair should be silky and smooth with a natural texture. If there are any issues with the hair, you will be able to notice them after it is clean and dry. If there is a problem for any reason, please contact us right away.

■ TRUE Straight

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use a alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.

■ TRUE Wavy

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use a alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.

■ TRUE Curly

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use a alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling. You can finger comb the hair when it is wet or use a paddle brush to comb through it.
- Hair should be air-dried or blow-dried with a diffuser to prevent frizz. Scrunching your curls is also not recommended. It is best to separate the curls with your fingers when you are drying the hair. Try not to manipulate the curls too much, especially once the hair is dry

■ TRUE Straight Bulk/Braiding

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use a alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.

■ TRUE Wavy Bulk/ Braiding

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use a alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.

■ S.I.L.K Signature Curly #1B

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- To prevent frizz, do not scrunch your curls! Allow hair to air-dry or use a hair dryer with a diffuser attached.
- Avoid frequent flat ironing of your new Keshini Signature Curly Hair, to prevent change in texture or curl pattern

■ S.I.L.K Signature Curly Virgin

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- To prevent frizz, do not scrunch your curls! Allow hair to air-dry or use a hair dryer with a diffuser attached.
- Avoid frequent flat ironing of your new Keshini Signature Curly Hair, to prevent change in texture or curl pattern

■ COLOUR Blond 613 Wavy

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- The hair has already endured a day or two of color processing, so we do not recommend that you recolor the hair. Instead, the hair can be ordered in a variety of color choices.

■ COLOUR Auburns Light Wavy

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- The hair has already endured a day or two of color processing, so we do not recommend that you recolor the hair. Instead, the hair can be ordered in a variety of color choices.

■ COLOUR Auburns Dark Wavy

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- The hair has already endured a day or two of color processing, so we do not recommend that you recolor the hair. Instead, the hair can be ordered in a variety of color choices.

■ COLOUR JET BLACK Wavy

- Shampoo and condition hair regularly with sulfate-free products.
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume

- The hair has already endured a day or two of color processing, so we do not recommend that you recolor the hair. Instead, the hair can be ordered in a variety of color choices.

■ ADORN Crowns (Closures 3x4) Straight

- Shampoo and condition hair regularly with sulfate-free products
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.
- Crowns and Wigs are crafted using a lace base that is designed to give it a more realistic appearance. Try not to pull on the hair, because you can separate strands from the base of the wig if you pull too hard. Also, be careful not to tug on the hair when you are using a flat iron.

■ ADORN Crowns (Closures 3x4) Wavy

- Shampoo and condition hair regularly with sulfate-free products
- Use a limited amount of styling product so your hair is not weighed down with chemicals.
- Allow hair to air dry or use a lighter styling product for increased volume
- Use an alcohol free styling product, or allow hair to air dry product free to achieve a full and natural look for daily styling.

OTHER HAIR CARE TIPS

■ Daily Care

- Brush or comb through to style.
- Use styling aids, such as mousse, gel, and hairspray in moderation (preferably alcohol free products).

■ Sleep Care

- Before going to bed, braid your hair into one loose large braid at the back of the neck. After waking up, undo braid and comb through beginning at the ends and working your way up to roots.

■ Repair, Restore and Revitalization

- If the hair begins to thin out in your Frontal or Closure areas, please contact a hair care professional that specializes in revitalization, restoration, or re-ventilation. These skilled processes take special training and experience, but have been proven to considerably extend the life of the hair. A re-ventilation specialist can revitalize or restore the hair back to its original condition by adding additional hair, repairing or replacing lace, and any other adjustments needed to keep it look fabulous.

■ Hot Tools & Dryers

- With hot tools you can manipulate the hair by creating beautiful curls or natural waves. Please use caution when using heat on Keshini Hair extensions to avoid damage to the cuticle.
- Avoid frequent flat ironing of Keshini S.I.L.K Signature curly, TRUE Curly and COLOUR Deep Wave Collection to prevent change of texture.

■ Styling Products

- Keshini Hair does not need much products to maintain its glamorous shine. Alcohol-free styling products like gel, hairspray, spritz, oil sheen, creams, styling balms or mousse should be used in moderation.

■ CHEMICALLY ALTERING YOUR KESHINI HAIR

- Our high-end collection of 100% genuine, Indian Virgin hair can be permed, bleached, dyed or relaxed. We recommend that this should only be done by a trained professional.

Our COLOUR Collection undertakes a specialized one or two day color process depending on the shade that we are looking to create. We make sure that the hair's cuticle is completely protected during the coloring process, so the hair's vitality and vibrancy is never compromised. This hair has been recolored by using a chemical lift to open up the cuticles and adding in pigment. The COLOUR Collection has already endured a day or two of color processing, so we do not recommend that you recolor the hair. Instead, the hair can be ordered in a variety of color choices.

Note that perming, coloring, lifting, or processing to the hair voids ALL EXCHANGE & REPLACEMENT guarantees.
